Projects

Data Science Project

🔗 <https://ds.com/data-science>

🔗 <http://localhost:3000/github.com/aushareddy>

Implemented a machine learning model for sentiment analysis using Python and TensorFlow. Collected and preprocessed data from various sources, achieving an accuracy of 85%.

- The project aimed to analyze sentiment in social media posts to understand public opinion trends.

E-commerce Platform

🔗 <http://localhost:3000/example.com/e-commerce-platform>

🔗 <http://localhost:3000/github.com/anushareddy/e-commerce-project>

Developed a robust e-commerce platform using MERN stack, integrating payment gateways and product recommendation engines. Ensured high performance and security standards.
